Universal 2 Part Adhesive MSDS – Component A

Identification of Preparation
Amtico Universal 2-Part Adhesive
Two component polyurethane adhesive – Component A. This component has to be mixed with the component B of the product according to the mixing ratio. Please note also safety data sheet of component B.

Company Information
Mannington Mills, Inc.
P.O. Box 30 - Route 45
75 Mannington Mills Road
Salem, New Jersey 08079 U.S.A.

Phone Numbers
General: (856) 935-3000
Product Emergency: (866) 359-5602
Spill Response: (800) 424-9300

Composition/Information on Ingredients
Adhesive preparation based on polyalcohol and fillers.

Hazards Identification
According to our present information, this product is not classified as a dangerous preparation under the Chemicals (Hazard Information and Packaging for Supply) (CHIP) Regulations (1994).

Maintain good personal hygiene as usual when handling chemicals.

First Aid Measures
After Contact with Skin
• Wash with plenty of soap and water.
After Contact with Eyes
• Rinse immediately with plenty of water and seek medical advice.
After Ingestion
• Seek medical advice.

Fire Fighting Measures
Extinguishing media: alcohol resistant foam, CO2, powder, water spray. Closed packages may be cooled with water spray.

Accidental Release Measures
Scoop up, soak up remainder with sand or earth and remove. Do not empty into drains.

Handling and Storage
Handling
• Wear suitable protective clothing, gloves and eye/face protection.
Storage
• Keep container tightly closed and dry. Keep away from food stuffs.

Exposure Controls and Personal Protection
Exposure Controls
• Ingredients assigned either maximum exposure limits or occupational exposure standards in HSE Guidance Note EH40: None.

Personal Protection
• Avoid contact with skin and eyes. Wash hands before breaks and end of work. Take off immediately all contaminated clothing.
• Eye protection: recommended minimum light eye protection.
• Hand protection: protective gloves (vinyl or polyurethane rubber).

Stability and Reactivity
No thermal decomposition, hazardous decomposition products, or hazardous reactions when properly stored and used as designated.

Toxicological Information
According to our experience and present information, this product presents minimal health hazard when used as designated and protective measures are followed.

Ecological Information
Do not empty into drains. Product is not a weak water pollutant.

Disposal Considerations
Incineration or waste disposal in compliance with applicable pollution abatement laws and environmental regulations (Control of Pollution Act (1974) and Environmental Protection Act (1990)).

Transport Information

Regulatory Information
Classified and labelled for supply in accordance with the Chemicals (Hazard Information and Packaging for Supply) (CHIP) Regulations (1994) as follows:

- Health – not classified
- Physico-chemical – not classified

Other Information
The information herein is given in good faith. No warranty expressed or otherwise is made. Any use of this data and information must be determined by the user to be in accordance with applicable laws and regulations.

Universal 2 Part Adhesive MSDS – Component B

Identification of Preparation
Amtico Universal 2-Part Adhesive
Two component polyurethane adhesive – Component B. This component has to be mixed with the component A of the product according to the mixing ratio. Please note also safety data sheet of component A.

Composition/Information on Ingredients
Diphenylmethane-4, 4’di-isocyanate (MDI) with its isomers and homologues.

<table>
<thead>
<tr>
<th>Name of Substance</th>
<th>Diazaldimethane-4, 4’ di-isocyanate</th>
</tr>

Hazard Identification
As classified under the Chemicals (Hazard Information and Packaging for Supply) (CHIP) Regulations (1994).

Xn: Harmful, Contains isocyanates

R-phrases:
R20: Harmful by inhalation
R36/37/38: Irritating to eyes, respiratory system and skin
R42/43: May cause sensitisation by inhalation and skin contact
First Aid Measures

General
• In all cases of doubt, or when symptoms persist, seek medical attention. If unconscious, place in recovery position. Give nothing by mouth.

After contact with skin
• Remove immediately with paper tissue or gauze. Wash off remainder with plenty of soap and water.

After contact with eyes
• Rinse immediately with plenty of water and continue for at least ten minutes. Seek medical advice.

Ingestion
• DO NOT induce vomiting.
• Keep at rest.
• Seek medical advice.

Inhalation
• In case of over-exposure, remove person to fresh air, seek medical advice.
• If breathing is irregular or stopped, administer artificial respiration.

Fire Fighting Measures
Extinguishing media: alcohol resistant foam, CO2, powder, water spray. Closed packages may be cooled with water spray. Not to be used: Small amounts of water (reacts with hot isocyanate).

Accidental Release Measures
Absorb onto suitable material, such as sand or sawdust. Scoop up after 1 hour, and keep in an open container. Keep wet and store outside for 7 to 14 days. Do not empty into drains. Dispose in accordance with applicable legislation.

Handling and Storage
Handling
• Wear protective gloves and eye/face protection. Use only in well ventilated areas.

Storage
• Keep container tightly closed and dry. Keep at temperature between 10°C and 40°C.
• Frost sensitive
• Keep away from foodstuffs.

Exposure Controls and Personal Protection
Exposure Controls
• Ingredients assigned a maximum exposure limit (MEL) in HSE Guidance Note EH40:
• Exposure of persons by inhalation must at all times be controlled to a level below the MEL.

<table>

</tbody>
</table>

Personal Protection
• Avoid contact with skin and eyes. Wash hands before breaks and end of work. Remove all contaminated clothing immediately.
• Eye protection: recommended minimum light eye protection.
• Hand protection: protective gloves (vinyl or polyurethane rubber)
• Use only in well ventilated areas. Otherwise, suitable respiratory protection must be worn.

</tr>
<tr>
<td>Explosion limits: limits not determined</td>
</tr>
</tbody>
</table>
Stability and Reactivity
Thermal decomposition: Polymerisation above approximately 260°C and CO2 generation.
No hazardous decomposition products when properly stored and used as designated.
Hazardous reactions: Violent reaction with alkali, amines, alcohols, acids. Reacts with water with CO2 generation.
Pressure increase in closed containers possible. Danger of bursting! These containers should be opened carefully.

Toxicological Information
LD50-value oral, rat: over 15,000 mg/kg.LD50-value inhalation, rat: over 370 mg/aerosol/m3 (4h exposure).
Effect on eyes: tear flow, burning severe irritation.
Skin: slight redness, occasional blistering or dermatitis.
May cause sensitisation.
Respiratory system (aerosol, vapour in high concentration): irritation of mucosa (nose, throat, lungs) dryness of throat, pressure on breast occasionally combined with breathing difficulties and headache. Symptoms and allergic reactions may occur after some delay in sensitised persons. All persons exposed to respiratory sensitisers are subject to appropriate health surveillance.

Ecological Information
Do not empty into drains. Product is a weak water pollutant. This component reacts with water over contact area with slow generation of CO2 to form insoluble polyurea. According to our information polyurea is inert and not degradable.

Disposal Considerations
Incineration or waste disposal in compliance with applicable pollution abatement laws and environmental regulations (Control of Pollution Act (1974) and Environmental Protection Act (1990)).

Transport Information
• Not dangerous goods in sense of mentioned transport regulations: ADR/RID, IMDG, ICAO/IATA-DGR.
• Irritating to skin and mucous membranes. Protect from frost. Avoid heat above +50°C. Keep dry. Keep separate from foodstuffs.
• UN No – not classified. Marine pollutant – no.

Regulatory Information
Classified and labelled for supply in accordance with the Chemicals (Hazard Information and Packaging for Supply) (CHIP) Regulations (1994) as follows:-
Xn:
- Harmful, Contains isocyanates, Contains Diphenylmethane-4,4’-di-isocynate (MDI), isomers/homologues.
R-phrases:
- R20: Harmful by inhalation
- R36/37/38: Irritating to eyes, respiratory system and skin
- R42/43: May cause sensitisation by inhalation and skin contact
S-phrases:
- S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- S27: Take off immediately all contaminated clothing
- S28: After contact with skin, wash immediately with plenty of water and soap.
- S36/37/39: Wear suitable protecting clothing, gloves and eye/face protection
- S45: In case of an accident or if you feel unwell, seek medical advice immediately, (show label where possible).

Other Information
The information herein is given in good faith. No warranty expressed or otherwise is made. Any use of this data and information must be determined by the user to be in accordance with applicable laws and regulations.
